Concrete Structure Design

Electrical Current Flow and Cement Hydration: Implications on Cement-Based Microstructure75

A. Susanto, G. Peng, D. A. Koleva, and K. van Breugel

Structural Behaviour of RC Beam-To-Column Connection with Corroded Shear Reinforcement83

Charles K. S. Moy

High-Performance Textile Concrete Structural Element Loaded by Bending Moment.....89

Tomas Bittner, Petr Bouska, Sarka Nenadalova, and Milan Rydval

Construction Materials

Effect of Stray Current on Corrosion Behavior of Reinforcing Steel: Importance of Cell Geometry and Orientation with Respect to the Electrical Field93

Zhipei Chen and Dessi A. Koleva

Corrosion Behavior of Low-Carbon Steel in Model Solutions, Containing Empty PBd-PEO Vesicles 101

Hitham Mahmoud A. Hassan and Dessi A. Koleva

Influence of Texture Depth and Layer Thickness of Crater-like Textured ZnO on the Efficiency of Thin Film Solar Cell..... 107

Rummana Rahman, Tamanna Motahar, and Tahsin Rahman

Heat Loss Reduction Analysis of 2-Layer ETFE Foil by Dymola Simulation 112

Mohd Azfar Nazim, Sharmin Abdullah, and Mirza Mohammad Maqbule Elahi

Roads and Bridges Design and Maintenance

Influence of Site Conditions on Seismic Design Spectra for Bridges 116

Muhammad Tariq A. Chaudhary

A Research of Key Indicators of Highway Construction for Public Supervision based on Cloud Model..... 124

Wei. Sun, Wei. Xiong, Chao Li, Tian Xie, and Xiangyang Xie

Detailed Examination of Myslinka Stone Railway Bridge, Czech Republic..... 131

Sarka Nenadalova, Tomas Bittner, Milan Rydval, Lukas Balik, and Milan Hrabanek

Project Management

Heavy Equipment Demand Prediction with Support Vector Machine Regression Towards a Strategic Equipment Management 137

A. Kargul, A. Glaese, S. Kessler, and W. A. Günthner

Alternative Approach to Analysing Infrastructure Using Limited Acceleration Time History Analysis 144

Trevor N. Haas and Michael N. Solms

Mechanics Analysis

Characteristics of Propagation and Attenuation for Different Stress Waves in Layered Rocks..... 149

Bing Sun, Jie-hui Xie, and Sheng Zeng

The Mechanical Experiments on Coal Combustion Residuals in Coal-Fired Power Plants 154

Enji Sun, Xing Kai Zhang, Xunxian Shi, and Jing Shi
